Profile

Experienced in building modern web applications, I specialize in front-end technologies like React, Angular, and Next.js while also proficient in back-end development using Node.js and Express.js. I have worked on high-impact projects in Web3 environments, delivering user-friendly interfaces and scalable solutions.

I am passionate about coding and creating seamless, efficient user experiences. While solving complex engineering challenges excites me, my focus is always on delivering solutions that address real-world customer problems and drive business results.
